Attachments: DIBELS Data System Agreement for FCRR.docx

Hi Sara,

I have attached the DIBELS Data System Agreement with the section that applies highlighted.

All districts sign this Agreement at the start of each school year so we do have district-level approval to share the data with this Agreement. Under 2c. Secondary Uses of Data, these are “research activities conducted by Oregon and its designees”. I confirmed with UO Innovation and Partnership Services (IPS) that FCRR can be considered a “designee” since we are working on this grant together.

Let me know if you have any questions.

Maureen

Sara,

After consulting with IPS, it looks like we’re in good shape to be able to share DDS data with you directly (meaning you can work with schools to distribute your recruitment information, without necessarily having to get district personnel involved), but a quick check in via phone would be good to make sure we’ve got all our bases (and IRB requirements) covered. How about tomorrow at 9:30 Pacific (12:30 Eastern)? If that doesn’t work, we can also do 11:30 – 12 (2:30 – 3) or between 1 and 3 (4 and 6).

Talk soon!
Patrick
